

Viano organic based fertilisers ... the right choice for an improved harvest quality in lettuce crops ...

**Improved soilconditions and
better rootdevelopment with
VIANO MIXPROF FERTISOIL**

Viano MixProf Fertisoil is a high quality organic based soil improver, which contains also Trichoderma and useful bacteria. It is indispensable to make the soil 'rich' and 'vivid'. Before planting of lettuce we recommend to mix Viano Fertisoil in the soil at 100-200 g/m². It optimizes the water-air balance in the soil. Thanks to the presence of Trichoderma, this product will neutralize organisms which are harmful to the lettuce in the soil.

Viano MixProf Fertisoil guarantees a faster 'establishment' and a better root development of the lettuce. This will result in stronger and healthier lettuce, better build and heavier plants.

DOSE (RECOMMENDED) : 10-20kg/100m²

AVAILABLE : 25 kg bags

PALET : 36x25 kg (900 kg)

Viano organic based fertilisers ... the right choice for an improved harvest quality in lettuce crops ...

**Top quality lettuce,
stronger crops and less
nitrate in the plant with
VIANO MIXPROF 3 !**

Viano MixProf 3 is a high quality organic fertiliser, specially composed for the fertilisation of lettuce and other leaf vegetables. Due to the specific composition and NPK (10-3-15(+2)), this product decreases the nitrate problem in leafvegetables and assures a maximum harvest per square metre, less damage when harvesting and an overall better weight. Thanks to the K-concentration in this formula.

Viano MixProf 3... the best choice for your lettuce crops !

DOSE (RECOMMENDED) : 10-15kg/100m²

AVAILABLE : 25 kg bags

PALET : 36x25 kg (900 kg)
